PROmarine
BOATS

Our story initially started when we bought marine engines and imported European and Americans boats.
Our passion and ambition drove us to build the chain of Pro Marine factories for fiberglass and inflatable boats in 2020, thus fulfilling a lifetime dream.Since then, we rapidly set up the infrastructure and created 14 models,
ranging from 5 meters to 11 meters.
We are proud to be one of the market leaders in the field of Fiberglass boats and Inflatable Boats.
